

# ORCHARD SPRAYERS

## VANBREDA SUPERSPRAY

UltraSpray axial fan orchard sprayers manufactured by VanBreda Sprayers are a professional line of trailed sprayers for modern orchard farming. The VanBreda UltraSpray range includes various configurations required to spray high and dense trees in Nut and Citrus orchards.

VanBreda UltraSpray Sprayers combine the world's best sprayer technology to make a trailed sprayer of the highest quality with a strong and lasting chassis.

### Qualities of UltraSpray sprayer:

- Tank sizes 2000L-4000L
- World leading fan technology
- Higher air volume at lower airspeed
- Less horsepower requirement
- Lower fuel consumption
- Ultra-strong folded chassis
- Heavy duty drawbar & Trail hook
- Adjustable axles
- Ribbed Polyurethane tank
- Fresh water tank
- Rinsing tank with easy rinse system
- EURO-GAP Compliant

## FIENI F1060 FAN UNITS

The UltraSpray range is built in cooperation with one of the world's leading axial fan producers FIENI Srl. This cooperation allows the VanBreda trailed sprayer with the latest light weight fan blade technology ensuring the accurate displacement of the correct doses of chemical product on your orchard. Custom designed bottom and top deflectors guide airflow for effective chemical targeting in the orchard.

### The fan blade technology allows for:

- Variable pitch curved fan
- Higher air volume with Lower air speed
- Improved chemical distribution
- Better tree penetration and leaf coverage
- Lower horsepower per fan size
- 15%-25% Fuel saving
- Low fan noise with reduced driver fatigue
- Brass rollover nozzles

Strong and adjustable axles for three height options.

Retractable step for easy tank lid access

Fresh water and flush tanks.

Adjustable heavy-duty drawbar and collar
