

SLASHER

HEAVY DUTY SLASHER

The heavy-duty slasher has been designed for all grass-cutting, bush clearing and heavy slashing operations in tough conditions, with different models having cutting widths up to 3.2m. These slashers are fitted with a heavy-duty gearbox and heavy-duty slip clutch PTO for additional machine protection. The machine works best with tractors rated from 100+kW. The blade holder system allows the blade to swing 120°.
