

# CULTIVATORS

## OTMA TILLER

**Easily Operated**

**Spring-loaded Tines**

**Seedbed Preparation**

The OTMA tiller is a double coil spring-loaded tine which is fitted with a reversible chisel point. The spring-loaded action allows one to work in rocky and harder soil conditions. Ideal for aerating grass pastures and loosening soil up to 200mm deep. The OTMA tiller can also be used to cultivate weeds and make seedbeds. When tines encounter obstructions under the ground the tine will disengage and re-engage once it has passed over the obstruction.

STOCK CODE	MOT 7	MOT 9	MOT 13
NUMBER OF TINES	7	9	13
TOTAL WIDTH	1 850mm	2 200mm	3 000mm
WORKING DEPTH	50 - 200mm	50 - 200mm	50 - 200mm
WORKING WIDTH	1 650mm	2 000mm	2 800mm
SPACE BETWEEN TINES	ADJUSTABLE	ADJUSTABLE	ADJUSTABLE
TINE LENGTH	350mm	350mm	350mm
REQUIRED POWER	35 - 40kW	45 - 50kW	55 - 60kW
